

Concurrent Enrollment vs. Dual Credit vs. Advanced Opportunities

Component	Concurrent Enrollment	Dual Credit	Advanced Opportunity Technical Competency Credit
Matching post-secondary competencies	100%	College based academic curriculum	Skilled based curriculum
Classes are taught	At EITC	At the high school	At the high school
Teacher eligibility	Only EITC PTE qualified Instructors at this time	Same qualifications as college teacher (or approval by the college)	Must be teaching a “technical” class and be approved by region tech prep consortium
When does a student become eligible	The student must apply as a concurrent student, Upon acceptance at EITC, and pay for the regular credit fees – See attached policy & process	At the beginning of the class, the student must enroll as a dual credit student and pay for the dual credit fees	After they have registered in CATEMA and earned an A or B in the class & passed the required competency assessment
Costs	EITC – as posted on http://www.eitc.edu/catalog.html.cfm	\$65 per credit – if taken at the high school (full college specific fees if taken at the college)	\$10 per credit
When are fees paid	At the time of registration	At the time of registration	Only when (if) a student wishes to purchase the credits (subject to a 2 year time limit from the time of course completion)
Failing Grades	All grades earned are reflected on the college transcript, including C, D, and F and may affect a student’s eligibility for college financial aid	All grades earned are reflected on the college transcript, including C, D, and F and may affect a student’s eligibility for college financial aid	College credit is only granted when a student earns an A or B in the high school class; grades of C, D, and F do NOT earn college credit and do not harm a student
Transferability of Credit	Credits are automatically reflected on an EITC transcript at the completion of the course.	Credits are automatically reflected on the participating college transcript at the completion of the course.	At the discretion of the receiving institution

EITC is currently only offering Concurrent Enrollment & Technical Competency Credit.
